

Big Questions:

What is the impact of our programs?

What do they do for children and families?

Why do we do what we do with so much care?

Group Brainstorm:

Helping them grow - learning in groups

Academic as well as the social

Life skills

Creativity

How children learn differently.

Hands on activities, bringing stories to life.

Helping families - falling in love with books

Reading brings us to all the different places

Provide new experiences

Meet and collaborate with peers

Making Learning fun and engaging

Try new things - push comfort zones

Promote different kinds of literacy

Hands on learning and experiences

Learning through doing

Experiences they may not have at home

Creativity

Able to Explore

Parents have their first experience - looking to the librarian, curiosity, need to feel safe in a place

Bring out their curiosity and discover they have the opportunity to learn

Feeling comfortable

Feeling safe

Being a role model - sharing our knowledge and bring supportive

How to create experiences for their children that are accessible

Exploration in a fun way

They understand that the programs teach their kids

Trial and Error

Connect with other kids and caregivers

Trying new experiences they cant do at home

Trying different things to peak kids interests

Connecting learning to library resources

Opportunities for parents and families to interact
